

Join us on a *little adventure* to discover the Lightkeepers of Preciosa.

Our people are the heart and soul of Preciosa, and their stories are as inspiring as their craft. We are shining a new light, not on a space, but on our people. The people whose passion for crystal, tradition and light create the stunning installations found round the world.

NEW EPISODE

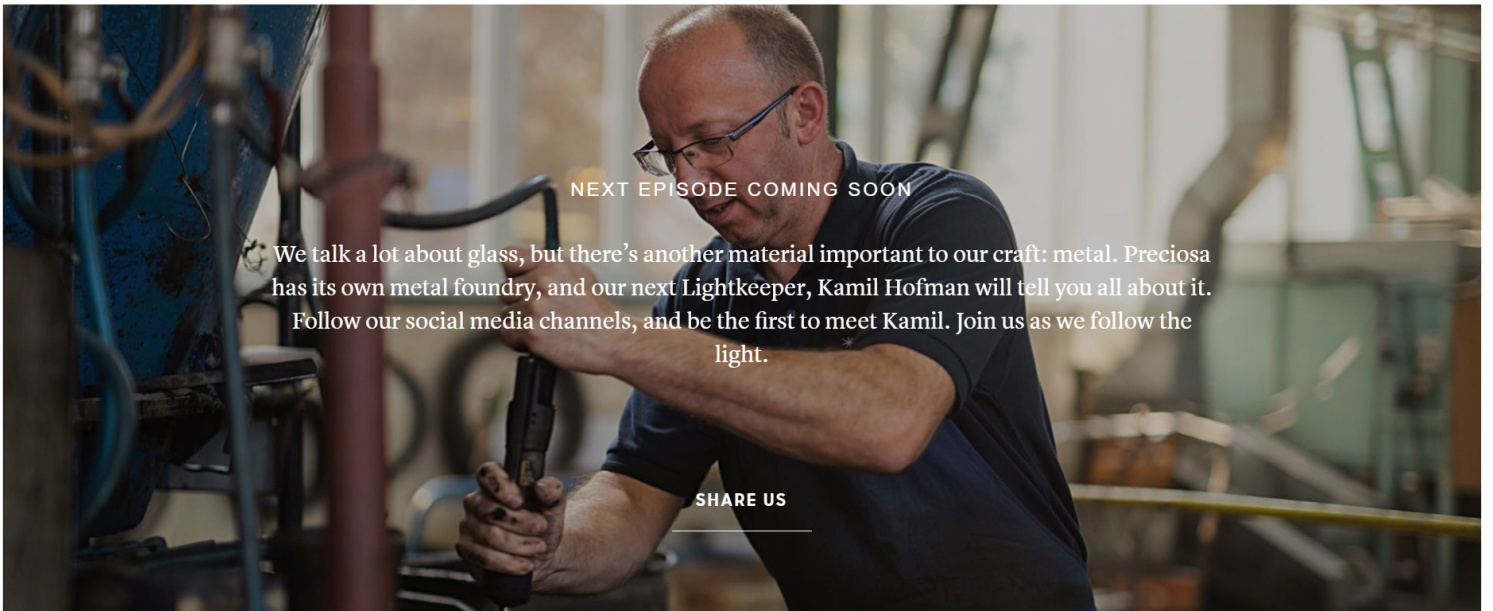

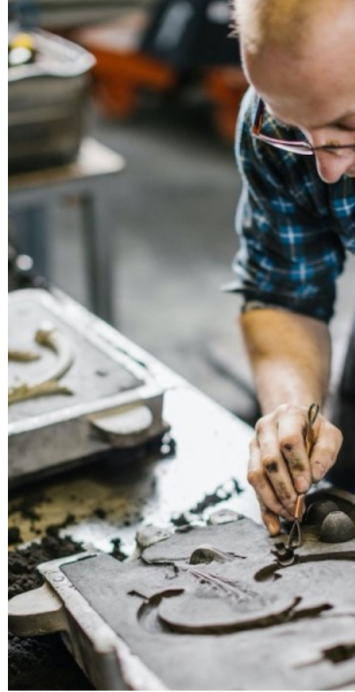

Meet a trimmings specialist

Everyone knows Preciosa chandeliers bring the sparkle. Our trimmings are an important part of that brilliance, and we have Milena Plašilova's crafty hands and attention to detail to thank for the glow. "I believe that one will always want to be surrounded by fragile beauty."

PLAY VIDEO

Our hands *craft the glass*. Our heads *remember our heritage*. Our hearts *keep the tradition*.

NEXT EPISODE COMING SOON

We talk a lot about glass, but there's another material important to our craft: metal. Preciosa has its own metal foundry, and our next Lightkeeper, Kamil Hofman will tell you all about it. Follow our social media channels, and be the first to meet Kamil. Join us as we follow the light.
