

Signature Designs

Signature Designs are the highest level of chandelier cultivation

Signature Designs are authentic, timeless and celebrate design

Life is defined by experiences, interactions and memories. Preciosa creates lighting with emotion, lighting that connects people, refined from our cultivation of the past. Signature Designs give designers the flexibility to bring their lighting visions to life.

Why Signature Designs?

FLEXIBLE DESIGN CONCEPT

ADVANCED USE OF TECHNOLOGY

UNEXPECTED EMOTIONS

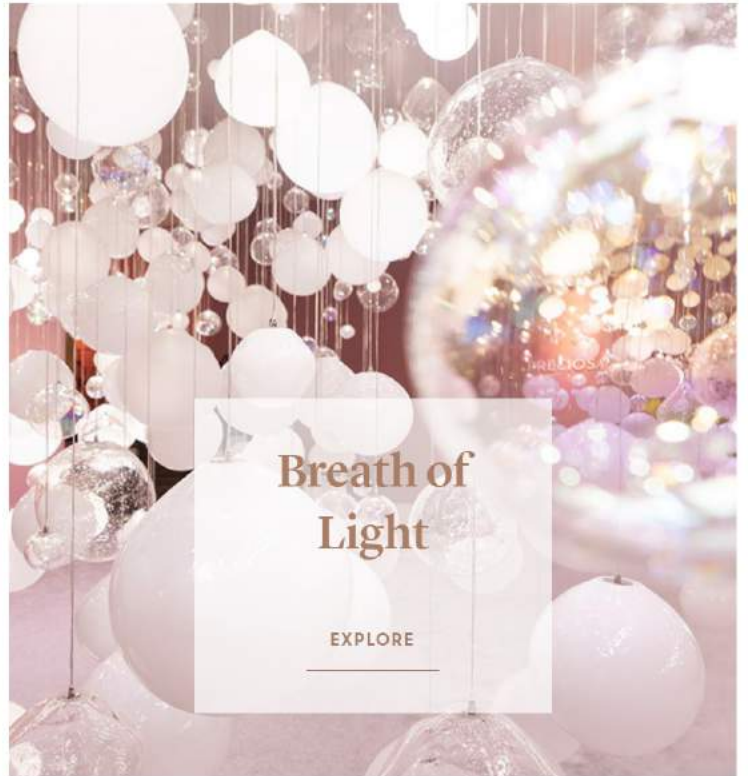

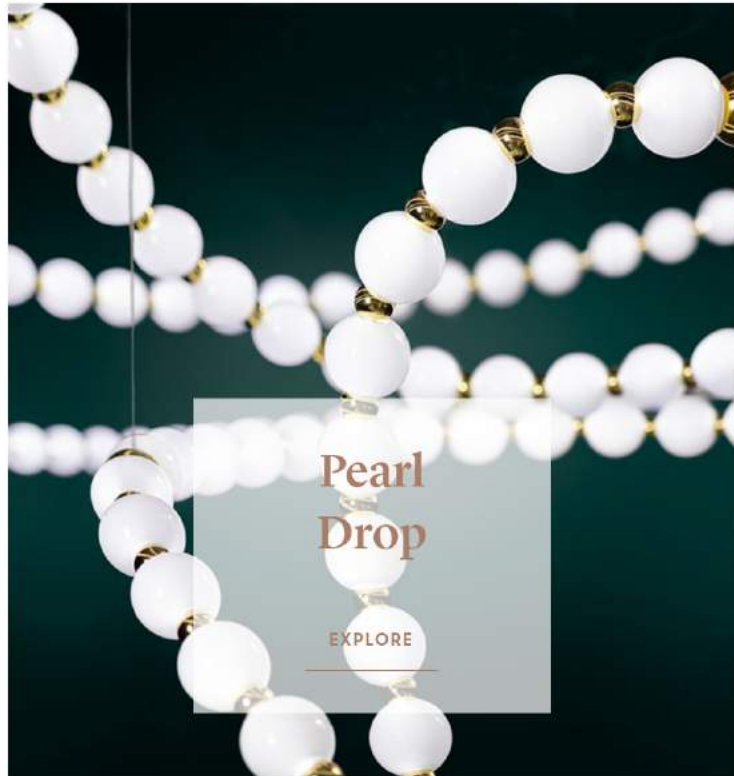

Flexible design concept

Signature Designs are an exclusive concept that allows designers to completely customize our lighting designs for their space. Each one offers different scales, compositions, colours, materials and surface finishes, construction principles and illumination methods.

Design concepts

We have five different design concepts, each unique and featuring

We have the different design concepts, each unique and retaining our advanced glass and lighting technology. Explore these lighting stories and discover their allure now.

All-in-one Customization

Signature Designs take into consideration various aspects of designing a lighting installation. They are ideal for private and public spaces as they can be designed large or small, vertically or horizontally. Because of the numerous customization options available, Signature Designs are always personalized for you.

01 Composition

Preciosa has a selection of pre-designed Signature Designs to demonstrate different typologies. Designers can choose one of these versions, modify it to better suit their space or use them as inspiration for their own composition.

02 Components

Made from Bohemian crystal, each Signature Design brings the contemporary and luxurious feel of crystal to your space. Choose your component colours, materials and surface finishes for the ultimate in personalization.

03 Construction principles

Signature Designs are tried and tested. We know how to construct your chosen design to fit the space. This leads to a faster development and installation period. Many can also be tailored for yachts and cruise ships.

04 Lighting effects

What impression do you hope your lighting will make? With Signature Designs you can choose different light temperatures, illumination methods and computer-programmed dynamic scenes.

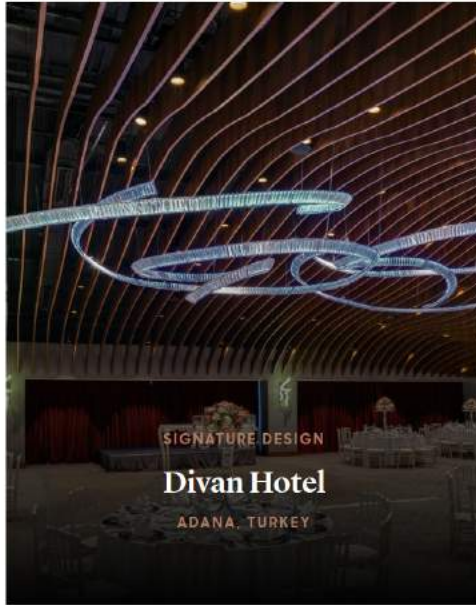

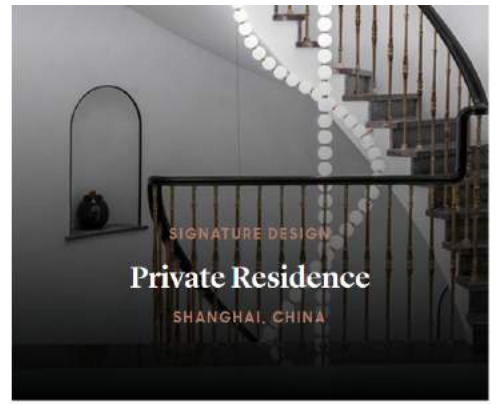

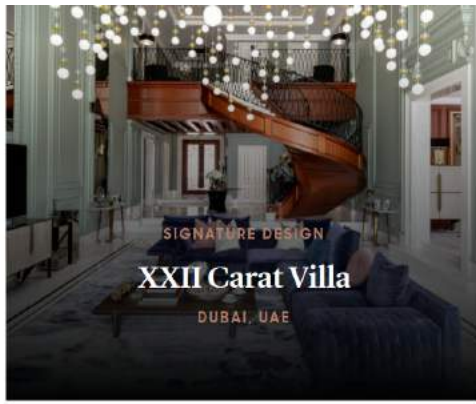

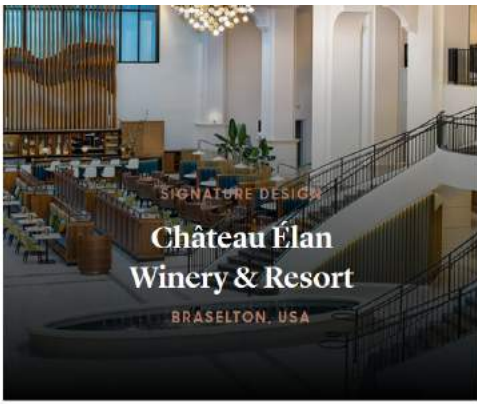

Made with love by our Lightkeepers

Signature Designs are designed, developed and hand-crafted in Crystal Valley by people passionate about art and light. Locally sourced materials are lovingly crafted by glass masters and put to the technology test that comes from our innovative R&D team.
